TOWN WARRANT

To the Inhabitants of the Town of Warner in the County of Merrimack in said State qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall in said Warner on Tuesday, the eleventh day of March next, at nine o'clock in the forenoon to act upon the following subjects:

Article 1. To choose all necessary town officers for the ensuing year.

Art. 2. To raise such sums of money as may be necessary to defray Town charges for the ensuing year and make appropriations for the same.

Art. 3. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on notes of the Town in the anticipation of taxes.

Art. 4. To hear reports of officers of the Town heretofore chosen, and pass any vote relating thereto.

Art. 5. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the issuance and distribution of printed matter calling attention to the resources and natural advantages of the Town, in cooperation with other Towns in the Dartmouth-Lake Sunapee Region.

Art. 6. To see if the town will vote to raise and appropriate the sum of \$400.00 for white pine blister rust in the Town in cooperation with the State Forestry.

Art. 7. To see what action the Town will take regarding the adoption of the State's Zoning Ordinance law.

Art. 8. To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-fourth day of February in the year of Our Lord 1941.

| No. visits citizens | 8 | 8 | 35 | 67 | 59 | 177 | 118 |

From the above tabulation it will be noted that the registration at the high school is the largest it has been for many years. The per cent of attendance in all the schools was higher than the previous year, but is still low as compared with the state average. The other items of the table remain about the same as the previous year. The number of elementary tuition pupils registered in the district was 18, there were 43 high school tuition pupils. This makes the number of pupils residing in the district and attending public school 217.

During the summer of 1940 the room occupied by the Commercial Department at the high school was put into condition for use of the Home Economics classes. The bare brick walls were sheathed and the floor refinished. Two kitchen units, consisting of white enamel sinks and cabinets, a gas heater and boiler were installed. There is yet need for a refrigerator and tables. The appearance of the room would be improved by the removal of the electric meter and attached wiring to the outside of the building.

The Commercial Department was moved to the two rooms formerly used for the Domestic Arts work: the typewriters were placed in the smaller room which is separated from the class room by a door with glass in the upper part. This prevents the sound of the typewriters from serious interference with the work of a class in the adjourning room. This new arrangement gives greater efficiency in the work of these two important departments.

There is still need of two foot baths at the gymnasium. Athletes' foot is very common in the state—our boys and girls could be protected from this troublesome disease at a cost of less than \$15.00.

At the graded school there is great need of new toilets; the toilets there have been in use many years and are in bad condition. It is very difficult to keep them clean, the place where they are located is dark and insufficiently lighted. We would recommend also, the removal of the old type drinking fountains, and the installation of fountains which make it impossible for children to place the mouth upon the orifice of the water. In the old type fountain, disease germs thus implanted on the tube for the water are carried upward by the jet and may be transmitted to other pupils.

On the opening of school in September, 1940, 54 pupils were registered in Grades 1-2. This number is much too large for a teacher to instruct with good results. Accordingly, it was necessary to employ an additional teacher who took over the work in Grade 2. The only room available for the use of this grade is the small room formerly used for the Home Economics classes in Grades 7-8 of Junior High School. This

was fitted with twelve desks and some small black-boards for the use of the pupils who occupy it in relays of twelve. The remainder of the pupils in Grade 2 sit in the first grade room until their turn for occupancy arrives. It was necessary to have the Junior High classes in Home Economics go to the High School for their work; there they are accommodated with far better facilities for instruction than at the graded school.

Great credit is due to the teachers and both boards for their interest and full cooperation in seeking the improvement of the schools, and in furthering the progress of the pupils.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.

I would like at this time to thank the Warner Women's Club and the Warner Red Cross for all that they have done in making it possible for the children at the Graded school to have hot lunches at noon time. I would like at this time to thank all who have at any time assisted me with any needs that may have been mentioned. All that has been done has been appreciated by me as School Nurse.

To the Citizens of Warner:

Our forest lands represent a substantial proportion of the town's valuation. They provide income to our citizens, from the sale of forest products and through employment to woods' workers. The protection of our forest lands is essential to the continued welfare of the town. Fire is the forests' worst enemy. It not only destroys the growing crop but leaves the land in such condition that nothing of value will grow for a long period of years. In addition it costs good tax money to extinguish forest fires.

An analysis of forest fire records indicates that 97 per cent are man-caused and consequently avoidable. Carelessness and failure to comply with reasonable regulations governing the building of fires in and near woodlands has been costly to both towns and individuals. Through elimination of the human equation, forest fire losses would be reduced to a minimum. This is possible if every citizen would be careful, familiarize himself with burning regulations, comply with them and then use proper discretion.

We have been particularly fortunate in this town since the hurricane in not having had more serious fires. This is due in part to the strictness of our wardens in issuing permits and splendid cooperation on the part of the public. Great care is needed because conditions in our blown-down areas are more critical with down material drying out and becoming more highly inflammable. The continued cooperation of every one is necessary.

We should all remember that:

1. Written permission of the local forest fire warden to burn trash, rubbish or other debris in or near woodlands or where fire may be communicated to woodlands is necessary when the ground is not covered with snow. Violation of this requirement makes the responsible party liable—

- a. To a fine not to exceed five hundred dollars or imprisonment of not more than one year or both.

b. To the town for expenses incurred by the warden or deputy warden in attending or extinguishing such fire.

c. For damage to abutting owners if the fire runs onto the abutters' property.

2. It is a violation of the Forest Laws of the state to—

a. Drop or throw any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire, from any vehicle while the same is upon a public highway or private way.

b. Drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violations of these prohibitions penalizes whoever is found guilty by a fine of \$25.00.

3. You should promptly notify your local forest fire warden of any fires you see.

4. The forest laws are being more strictly enforced each year.

Your cooperation will save the warden considerable worry; you and your town much trouble and expense.

The 1940 fire record for our town follows:

| | |
|--------------------------------|-----------------|
| Number of fires | 8 |
| Acreage burned | 8 $\frac{1}{4}$ |
| Cost of suppression | \$55.62 |
| Number of permits issued | 27 |

GEORGE F. FREEMAN,
Forest Fire Warden.
